"Public Health-Access and Services For All"

I extend to each of you a warm welcome to the 81st Annual Meeting of the North Carolina Public Health Association. It has been a pleasure and privilege to hold the office of Vice-President of Education this year.

The program subcommittee and the section program chairpersons have so willingly contributed their time and expertise to develop this program which we proudly present to you. My deepest appreciation to this group of program planners and to the local arrangements committee for diligently working to making our meeting a success.

We hope each of you will receive some benefit from our 1992 Meeting that you can share with your peers when you return home. Encourage your co-workers to join NCPHA!!

A special thank you to Deborah Rowe who has worked so hard all year to make our association the best it can be.

Lillie Dewitt
Vice-President for Education

Randall A. Turpin

Dear Friends:

I would like to welcome you to our 81st Annual Educational Conference. This conference reflects the culmination of efforts of many individuals. Please take this opportunity to renew old acquaintances, make new friends, and allow this conference to help you reach a plateau of personal and professional excellence.

It has truly been a pleasure to have worked with this year's NCPHA Executive Committee and Governing Council. It is difficult to realize that a year has already passed, but hopefully during this year we have been successful in making the NORTH CAROLINA PUBLIC HEALTH ASSOCIATION a stronger, more viable organization.

This year, the first Membership and Legislative Surveys were developed and completed in which the results will be used as tools for future planning. Also successfully established were the foundations for an Endowment Fund and a North Carolina Health Care Consensus Conference.

With the utmost sincerity, I wish to thank each of you for allowing me the opportunity to have served as your President. Thank you for your support, kindness, and friendship.

In the spirit of public health,

Randall A. Turpin

PROPOSED RESOLUTIONS

PROPOSED RESOLUTION Support of Dietetics/ Nutrition Practice Act

WHEREAS, the Dietetics/Nutrition Practice Act was established October 1, 1991 by the General Assembly of the State of North Carolina; and

WHEREAS, licensure was established to safeguard the public health, safety and welfare and to protect the public from being harmed by unqualified persons; and

WHEREAS, licensure was established to regulate persons engaged in the practice of dietetics/nutrition and to establish educational standards for those persons; and

WHEREAS, licensure will elevate the practice of Dietetics/Nutrition to a professional level comparable to other licensed health professionals; and

WHEREAS, it is the desire of the Nutrition Section of the North Carolina Public Health Association to see the profession of Dietetics/Nutrition recognized as an equal partner in the Health Care Team;

BE IT THEREFORE RESOLVED, that the North Carolina Public Health Association support the licensure of Dieticians and Nutritionists in North Carolina and support efforts to assure that all individuals who desire to be licensed are given reasonable and cost effective opportunities to do so.

PROPOSED RESOLUTION An Action to Rescind Resolution 1990.01 "Abortion: A Personal Health Service"

WHEREAS, the decision about pregnancy and childbearing are very personal, and private decisions of every responsible woman; and

WHEREAS, "1990.01 ABORTION: A PERSONAL HEALTH SERVICE" is contradictory when it states: "abortion should not be used as a family planning method" and then resolves that "NCPHA believes that individual women and couples should have the means to decide, without compulsion, the number and spacing of their children..." and

WHEREAS, abortion is not an "unequivocal right" of every woman; and

WHEREAS, Resolution 1990.01 makes statements that have not been adequately studied and/or documented, such as: "women without financial resources who desire abortions seek them from incompetent practitioners or are forced to bear children they do not want" implies this occurs all the time and under all conditions which simply is not documented;

THEREFORE, BE IT RESOLVED that the North Carolina Public Health Association supports the rescission of Resolution 1990.01.

For your information when considering the proposed resolution above ("An Action To Rescind Resolution 1990.01"), the original resolution (1990.01) follows:

1990.01 ABORTION: A PERSONAL HEALTH SERVICE

WHEREAS, the United States Supreme Court has legalized abortion in the United States by its decisions in *Rowe v. Wade*, 93 S. Ct. 705 (1973) and *Doe v. Bolton*, 93 S. Ct. 739 (1973), and

WHEREAS, the United States Supreme Court has set forth specific guidelines for abortion in its holding, and

WHEREAS, the 1973 Supreme Court decision declared unequivocally the right and guarantee to abortion for all women; and

WHEREAS, abortion should not be used in family planning method and there is no 100% effective contraceptive method, abortion is a choice which enables women to avoid having unwanted childbirth; and

WHEREAS, women without financial resources who desire abortions seek them from incompetent practitioners or are forced to bear children they do not want;

THEREFORE, BE IT RESOLVED that the North Carolina Public Health Association believes that the right to make decisions about pregnancy and childbearing must remain the personal, private choice of every woman, and

BE IT FURTHER RESOLVED that the North Carolina Public Health Association supports the full implementation of the Supreme Court's action in every state in order to make abortion a matter of medical practice everywhere in the nation and in North Carolina; and

BE IT FURTHER RESOLVED that NCPHA encourages the North Carolina General Assembly to continue to make funds available to poor women for elective abortions; and

BE IT FURTHER RESOLVED that abortion is a personal service that should be made available in accordance with the proper standards of health care and with regard for the rights of patients; and

BE IT FURTHER RESOLVED that NCPHA believes as a regular part of medical practice, the performance of abortions should be subject to the same regulatory and administrative controls as other medical practices; and

BE IT FURTHER RESOLVED that NCPHA believes that individual women and couples should have the means to decide, without compulsion, the number and spacing of their children which is a right that has been supported and enhanced from governmental action at all levels; and

BE IT FURTHER RESOLVED that NCPHA believes that abortion should remain legal and it should be made equally available to all, regardless of age, race, marital status, place of residence, or economic situation and that federal and state funds, from Medicaid and other programs, should be

provided for women unable to pay for abortion services.

PROPOSED CHANGES IN BYLAWS

1. Membership - There are presently five (5) categories of membership:

Regular Member,
Student Member,
Life Member,
Contributing Member,
Retired Member

The proposed change would add a sixth category:
First Time Member

First time members shall pay annual dues at a rate of \$10.00 less than regular membership fees as set by the Governing Council. They shall be entitled to all membership privileges including the right to vote, make motions and nominate, to be a member of one or more Sections upon payment of dues, if any, to hold office in the Association (if the qualifications in Article VI are met) and/or any section, to serve on committees of the Association or Sections; and to attend any educational session during the Annual Meeting.

2. Change in Dues Collection and Fiscal Year

The current wording of the second paragraph of Article IV. FINANCES is as follows:

“All dues are payable at the beginning of the fiscal year, which shall be January 1.”

The proposal would change the date from January 1 to October 1. It would further be recommended to extend the discount period for early renewal from six to twelve weeks.

This change would allow the sitting president and executive officers to be responsible for and preside over the entire annual meeting; the new officer would be installed at the annual meeting, but would not actually assume office until October 1; all officers, including the treasurer, would change office October 1st. Presently the treasurer must serve through the end of the fiscal year to close out all financial proceedings. The new president and the full executive committee would have more time to meet and plan for the needs of the Association and the Annual Meeting.

3. Structure and Roles of Elected Officers

The current wording of the first paragraph of Article VI. OFFICERS is as follows:

“The President shall have been a member of the Governing Council of NCPHA or Chairman of a Standing Committee of NCPHA during the past five (5) years.”

The proposed change would recommend service on the Executive Committee during the past five (5) years. The proposed change would read as follows:

“The President should have served on the Executive Committee during the past five (5) years.”

This proposal ensures that the President-Elect has adequate knowledge of the overall operations of the Association prior to service as President.

4. Publications

The current wording of Article XIV PUBLICATIONS is as follows:

All publications of NCPHA shall be issued under the direction of the Governing Council and shall become the property of NCPHA.”

It is recommended that the following statements be added to the Bylaws as a requirement to be included in all NCPHA publications:

“Authors alone are responsible for views expressed in signed articles published by the Association. The Association is not to be considered as endorsing the views and opinions advanced by authors of papers published by the association. Advertisers and their agencies will assume liability for the content of all advertisements printed and also assume responsibility for any claims arising therefrom against the publisher.”

REYNOLDS AWARD

1992 Recipient -- Delton Atkinson, M.P.H., M.S.P.H.

The Reynolds Medal of Achievement was established in 1948 in honor of Dr. Reynolds and originally was awarded to the person that presented the most outstanding paper at the Annual Meeting of the Association. In 1950, the criteria was changed to include all persons working in the field of public health and no longer required a paper and/or speech. In 1952, the Award was limited to the individual member of the Association who had made the greatest contribution to public health in North Carolina during the past year.
